

BPA xRM Platform & Solutions

“Businessing” SharePoint

BPA xRM is a unique solution platform “Businessing” SharePoint and allowing organizations to track any information and process and any type of internal or external relationships. BPA xRM Solutions are ready-for-use business apps for CRM, Quality, Risk, Project, Recruiting and customer Self-Service.

The BPA xRM platform is an – Easy – Flexible – Fast – Economic – Capable – Trendy –solution that will bring huge EFFECT and outcome to your SharePoint environment.

Linking Information and Processes

BPA xRM links together what belongs together. A sales opportunity, a task, an appointment or a quote are linked to a contact. Milestones, resources, costs are linked to projects. The same rules apply for each process in your business. BPA xRM provides consistent relationships between all processes and data.

Instant Business Power for SharePoint

BPA xRM makes SharePoint an intuitive platform to drive your daily business. BPA xRM complements the robust and scalable Microsoft SharePoint collaboration platform with coherent features driving business efficiency.

The Swiss Knife for your Business Solutions

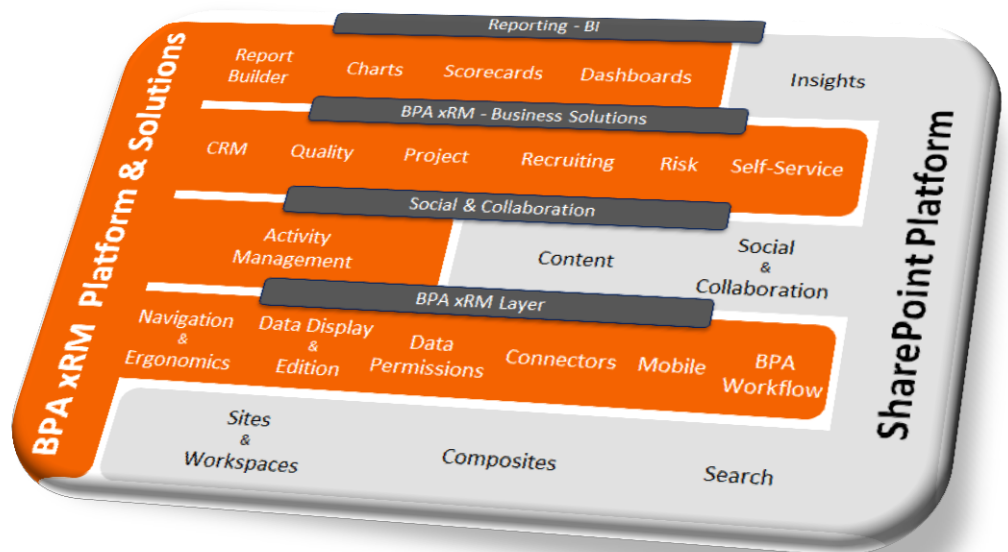

Think. Configure. Ready. BPA xRM is simple, intuitive and quickly introduced. Functional people can design powerful business solutions in hours and with no need of IT people. End users will love using BPA xRM solutions 8 hours a day, maximizing your SharePoint investment.

Growing with your Needs

BPA xRM is an open solution that will grow with your needs. You can add your own features or purchased third party web parts. Because it’s so easy to customize you can be sure that your business solution will constantly evolve with your needs with no technology risk.

Starting from ready-for-use Business Solutions

With BPA xRM business solutions you can start from an out-of-the-box and ready-for-use application like CRM, Quality, Risk, Project or Recruiting Management. No need to reinvent the wheel. Just start working now and make your solution evolve with your needs using the powerful xRM platform.

Building your own Business Solution in 3 steps

1. Start from BPA xRM template containing main lists, pages and generic features
2. Add your own topics of interest (e.g. resources, machines, purchase orders, contracts...)
3. Your custom application is ready-for-use in hours and with no development

Built on SharePoint

Microsoft SharePoint is the mostly adopted collaborative technology worldwide. BPA xRM benefits from all SharePoint native features like easy browser-based administration, Microsoft Office integration, BI capabilities, searching and social features and many others.

Deployment

BPA xRM platform & solutions are available for SharePoint Services, Foundation or Server 2007 or 2010. On-premise or hosted deployments are possible.
